

TAYLOR ISD TAILGATE TRAILER GRANT

MALLARDS MEAT MAVENS HSBBQ

Project Title: TISD TAILGATE TRAILER

Your Name: Chef Mike Erickson

Campus: ALL / Mainly THS Grade: 6-12 Subject(s): Culinary Arts, Outdoor Recreation, Band, Athletics

Number of Students: 1400 Total Cost of Project: \$24461,99

Please answer the following questions in your evaluation:

***What were your stated objectives for the project?**

My objectives are to develop a District Asset that will serve not only my students in Culinary Arts, but the whole District in different ways from culinary education and teaching to food cost savings, service, igniting DUCK PRIDE, campus fundraising potential, and feeding more wholesome nutritious meals to students for HOME games and potentially some away. This District transportation Asset will be used annually to serve in the community for a local Hunger/Veteran related cause ie. Soup Kitchen, Disaster Relief, Memorial Day, or off campus community event bring our students into the community to teach them about service above self while using their cooking skills to make a small difference in their own backyard. The THS Culinary Arts would get to use the trailer 4-6 times a year for High School BBQ Competitions, it would be used Friday nights for football season home games, 1 a year for Marketing THS Culinary at the Middle School, and be available to check out of transportation for use by any District Staff if available for their campus needs – feeding staff, feeding students, campus events, teaching, away competitions, ect. The Trailer would be a District asset that would be managed just like a van or District truck and requested via formal TISD channels per the date and request of use through Transportation. Could also be pulled in the parade, large District events, and be a rolling billboard for the District.

***How did you measure them?** It will be measured by number of District staff that check out the Trailer, what they use it for, the number of students served and fed, and the food cost they save by doing it in house verse outsourcing or hiring catered food. It can also be measure by the number of trophies are THS Mallards MEAT MAVENS bring home competing in High School BBQ competitions representing our District.

***Did you meet your goals and objectives for the project? Explain.**

The goals will be met by having two THS High School BBQ Teams, tailgating at each home football game, using to market the Culinary Arts program at the Middle School annually, and the happy faces of students and community as they COME EAT OUR

HOMEWORK and continue to develop a tailgate culture and DUCK PRIDE culture at THS and the District.

*Please describe any unanticipated results-positive or negative.

Positive results will be engaged students, happier staff and students during Athletic seasons, fan pride, and a new DUCK Tradition.

*If you were to do this again, or if the project were replicated, what modifications or budget considerations would you recommend?

*Do you have any suggestions to improve the grant application process?

Finally, with your written evaluation, we require a direct quote from you for use on future brochures/new releases.

GRANT BUDGET (2 High School BBQ teams)

1. TRAILER (\$7,000.00 - \$9,000) 8.5' x 18' Tandem Axle Blackout Cargo Trailer
